The back will ache no more.
Lots proof that Doan's Kidney Pills do this.
It's the best proof, for it comes from this vicinity.

C. C. Dearborn, Pleasant St., So. Paris, says: "I have used Doan's Kidney Pills and think so highly of them that I am perfectly willing to give my name as an endorser of them. I only hope my statement will be the means of bringing relief to some one suffering as I have. For a long time I was made miserable by a pain in my back. My kidneys did not act in a proper manner and the secretions were very unnatural. I finally used Doan's Kidney Pills and they helped me a great deal. I am going to continue taking this remedy."

The Post-Graduate.

When I came home from college with wealth of learning, I thought my fund of knowledge was something quite profound. But father viewed me calmly and remarked how he could; I found out subsequently how father understood. As now I backward scan it, the thing I meant to do was just to take this planet and make it over now. But father did not shout it. About the neighborhood, he almost seemed to doubt it, for father understood. Now I have sons in college and a son in the army. They find new fields of knowledge. I found in days of yore. They read of all their learning. More loudly than they should, while I—well, I'm discerning. How father understood.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known. It is the medical remedy for Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

To the Honorable Justice of the Supreme Judicial Court, to be held at Ramford, within and for said County of Oxford, on the second Tuesday of May A. D. 1910.

My Ellen Elizabeth Fields, in said County, wife of William M. Fields, respectfully represents: that her maiden name was Mary E. Cavanaugh; that she was lawfully married to the said William M. Fields at Mexico, in said County, on the thirteenth day of June A. D. 1897; by Henry J. L. Jones, a Justice of the Peace of said County, and that she and the said William M. Arbor Day.

May 18th is Arbor Day and the Superintendent of the public schools in Maine, Payson Smith, Augusta, sends the following:

The best observance of Arbor Day will consist of the planting of trees, not one, but several. Arbor Day was established in Maine in 1887. After twenty-two years' observance there are scores of school grounds that are without ornamentation of trees or shrubbery. If any of these treeless school grounds are in your town, will you not arrange for a genuine observance of Arbor Day by the planting of trees?

Literary exercises emphasizing the usefulness of forests to man, the meaning and purpose of forest conservation and, especially, the value of Maine forests will serve to impress upon the youth of the State important duties that will belong to their approaching citizenship. I trust opportunity for such exercises will be found.

School Improvement Leagues organized in your rural schools would be effective in carrying forward the work begun on Arbor Day.

Please send me a report of the work accomplished in your town on Arbor Day, including the number of trees and shrubs planted. A copy of this report sent to your local paper would serve to give publicity to the efforts of your pupils, teachers and citizens.

This office is prepared to supply you and your teachers, on application, with the following pamphlets:

1. Instructions for Selecting and Planting Trees.
2. School Gardens.
3. Forest Trees of Maine.
4. School Improvement League Manual.
5. Improvement of School Buildings and Grounds.

Farmers should eat more oatmeal.

Although the farmer of today is able to buy almost anything he wants to eat, he is not paying enough attention to food values when it comes to his own table.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized in this country and Europe as the best of all oatmeals. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

For home use it is packed in regular 10c packages, and in large size family packages at 25c.

Bronchial Tubes All Stuffed Up.

"While a resident of Washington, D. C., I suffered continually and intensely with a bronchial trouble that was simply terrible to endure. I would have spells that I could hardly breathe. I would choke up, fill up in my throat and bronchial tubes, and the doctoring that I did and the remedies used were of no benefit to me whatever. I heard about Booth's Hyomei being so beneficial in catarrhal and bronchial affections and procured an outfit. I received relief from the first by its use. I continued with it and received a cure. It is about two years since I have suffered at all from my former trouble.—Mrs. R. L. Pannell, 404 N. Augusta Street, Stanton, Va., March 26, 1909.

Norway Advertiser Fifty-nine Years Ago.

We have before us a copy of the Norway ADVERTISER of Thursday, September 20, 1851, new series, volume 1, number 9. Evidently this series of paper had been printed nine weeks.

Its editor and publisher was Moses B. Bartlett, price \$2.00 per year. In clubs of ten, \$1.25, cash in advance; in clubs of twenty-five, \$1.00 even in advance. It is a seven-column folio, making 28 columns all told and is excellently printed on good quality paper.

This particular copy of the ADVERTISER was handed us by Judge William F. Jones of this town. It was found in a trunk of keepsakes at the family home in Boston when they were recently breaking up housekeeping. Undoubtedly it had been saved on account of the description of the big fire of '51 in which quite a portion of the village was destroyed and it was from this fire that the fire department dates its history. The advent of the Oxford Bear Head Tab was the immediate result of the fire.

Among the losers were the following: Anthony Benoit, all things included, also stable with stock and carriages. Loss \$3,000.

A. C. Dennison, store and outbuildings occupied by Dennison & Kendall. Loss of Dennison & Kendall stock, 6,000.

Joseph Shackley, house \$500. Benja-

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Denison & Kendall take the largest amount of space in telling of their general stock of goods. Goodwin, Noyes & Francis, cabinet furniture, occupy a good sized space. Brown & Co. tell of their foundry and stoves at Steep Falls. John Beal sells at auction "the so-called Dolley place situated on the East side of the pond in the Bennett neighborhood four miles from Norway village."

Ready made clothing is represented by J. H. Merrill. Charles Billings of Waterford has sold his son, Henry S. Billings, his time during his minority. The signature was witnessed by Sanders Kimball, Simon Walton and C. B. Coffin have a jewelry establishment opposite the Elm House. A stray buck has entered the enclosure or yard of George W. Everett and he advertises same.

J. H. Hall notifies the people of the two villages that he hangs door bells and manufactures door plates at short notice, "gold, silver and painted letters."

"The undersigned has been appointed agent for the town of Norway under the late law to sell land for medical and medicinal purposes to all persons excepting strangers. These are required to bring a certificate from a respectable physician or one of the selectmen of the town." (Signed) "James Crockett."

Brown & Co. of Steep Falls have a large quantity of iron shafting for sale. William Goodnough has a brick store to let, formerly occupied by himself. William K. Kimball was clerk of courts of Oxford County at this time.

Considerable space is given in the advertising columns regarding the ability of M. B. Bartlett, the evidently proprietor of the paper, to get government pensions for people who are deserving them. He gives a list of the names of pensioners for whom he has gotten pensions in Albany, Newry, Oxford, Greenwood, Sweden, Mexico and Roxbury. It does not say whether these were the pensioners of the 1812 war or the Mexican war of 1845, probably the latter.

The new law regarding advertising probate matter is published. This law was approved by the legislature June 27, 1850, and allows the one having business before the judge of probate to designate the paper in which the legal advertising shall appear unless the judge should be of the opinion that the paper was unsuitable from its want of circulation or other substantial reason. (The same law is now on the statutes.) The editor then says, "We trust that the judge of probate will cheerfully comply with this law and not form exceptions to those in the rest of the state. We have no doubt that any request to publish will be readily granted." Evidently, the probate business was going into another paper at that time, as we do not say anything of it in the paper that we have.

"The soldiers of the war of 1812 and the Indian wars since 1790, their widows and minors who are entitled to lands under the act of September 28, 1850, could have their claims prosecuted by M. B. Bartlett, counselor and attorney at law, also commissioner for New Hampshire." Evidently, Editor Bartlett believed in advertising and he sounded his trumpet so all could hear him.

Spitting Laws.

Anti-spitting ordinances, laws and regulations in more than five-eighths of the cities and towns of the country are not enforced as they should be, alleges the National Association for the Study and Prevention of Tuberculosis in a bulletin.

On account of the fact that the National Tuberculosis Sunday will be observed on April 24, the National Association is calling the attention of clergymen in all parts of the country to the advisability of bringing before their congregations the necessity for better enforcement of the anti-spitting laws.

If you are to have the Three-Times-a-Week World and ADVERTISER send \$2.50. It pays for a year for both papers.

Peruna Secrets You Should Know

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic.

Many thousands of pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.

min Tucker, house and outbuildings, \$1,600.

Captain Henry Russ, buildings, \$1,500. It says that E. C. Jackson, a boarder at the hotel, lost a valuable horse in the fire; also value containing papers representing several hundred dollars in value.

A man from Lovell lost two horses in the fire. Name is not given. Also Messrs. Longley & Co. employed in the express service.

"This fire was universally supposed to have been the work of an incendiary. Some arrests on suspicion have been made and the matter is under investigation." Further on in the same paper we find that they lacked sufficient evidence to hold the parties and they were allowed to go free. Their names were not given. The house of Asa Danforth and Mark P. Smith on the opposite side of the street caught several times.

The paper extends thanks to the people of South Paris and vicinity for their assistance and zeal in stopping the spread of the fire.

The paper announces the marriage in Rumford of William Wirt Virgin and Sarah H. Cole, both of Norway. Mrs. Virgin at the present time is living in Portland.

Among the advertisers as lawyers appear the names of M. B. Bartlett and William W. Virgin. The physicians are represented by J. W. B. Welcome and Jesse Howe. The Elm House and Railroad House were the hotels. T. H. Kelley was the tailor; Noyes & Beals, booksellers and bookbinders; William E. Goodnough, insurance agent; C. L. Francis, druggist and apothecary; William M. Cushman, watches, clocks, jewelry and fancy goods; Ebenezer Kelley, painter and glazier and paper hanger.

Well, it is time you got rid of it. The first thing you know it will settle on your lungs—and then what? Pneumonia, Consumption, or a miserable run down condition of your entire system.

If we cannot "knock it out" in short order with VINOL, our delicious tasting cod liver and tonic preparation—we will not charge you for the medicine you buy for a trial—isn't that fair?
